No. 115.

TO A WATERFOWL.

By WILLIAM CULLEN BRYANT.

Other selections from Bryant, together with his biographical sketch, have already been printed in this series.

In some versions of this poom the third line of the second stanza reads "As, darkly painted on the crimson sky,"

WHITHER, 'midst falling dew,

While glow the heavens with the last steps of day, Far, through their rosy depths, dost thou pursue Thy solitary way?

Vainly the fowler's eye

Might mark thy distant flight to do thee wrong, As, darkly seen against the crimson sky, Thy figure floats along,

Seek'st thou the plashy brink Of weedy lake, or marge of river wide, Or where the rocking billows rise and sink On the chafed ocean-side?

There is a Power whose care Teaches thy way along that pathless coast--The desert and illimitable air-

Lone wandering, but not lost. All day thy wings have fanned,

At that far height, the cold, thin atmosphere; Yet stoop not, weary, to the welcome land, Though the dark night is near.

And soon that toil shall end; Soon shalt thou find a summer home and rest, And scream among thy fellows; reeds shall bend Soon o'er thy sheltered nest,

Thou'rt gone, the abyes of heaven Hath swillowed up thy form; yet, on my heart Deeply hath sunk the lesson thou hast given, And shall not soon depart;

He who, from zone to zone, Guides through the boundless sky thy certain flight, In the long way that I must tread alone,

William Cullen Bryant

FREDERICKSBURG.

Intermediate Celebration of Literary Societies.

FREDERICKSBURG, VA., Feb. 23 .-Major W. S. Embrey, of this city, has purchased the Hunt place in Spotsylvania county, on which the United States gold mine tract is located, and the Johnson gold mine tract in the same county. These two pieces of property contain over 1,000 acres of land, on which is a large quantity of spiendid timber of criginal growth, which will be utilized by Major Embrey.

The literary societies of Fredericksburg Collega had their intermediate celebration last night, which was largely attended and much enjoyed. The orations were delivered by E. W. Carter and M. Gooda and the declamations by J. B. Garnett and Robert Viser. An essay was read by Miss Lucy Barber and the

was read by Miss Lucy Barber and the other numbers were musical, participated in by Misses Annie Latimer, Lillian Allen, Mr. Samuel Woolbridge, Misses Sanford and Williams.

Mayor M. G. Willis, who has been confined to his home by sickness for some days, was out to-day.

The Washington Guards, Company L. Seventieth Virginia Regiment, which participated in the Washington celebration parade at Alexandria yesterday, have returned here.

MILLIONS IN PROSPECT

Will Likely Get Appropriation From Congress.

THE BILL HAS MANY FRIENDS

Feature of It Is to Give the Government Something in Return for Money.

(From Our Regular Correspondent.) WASHINGTON, D. C., Feb. 23.-The brightness of the prespect for the evenual passage of the bill making an appropriation of three million dollars to the Jamestown Exposition has not been exaggerated. The members who are pushing the bill are confident that it will eventually pass, though the determination of the Republicans to keep down the appropriations in a presidential year makes it doubtful of success at the present session. Still, it is protty well assured that the appropriation will be made next year, which will be in tine for the exposition in 1907. The bill is different the exposition in 1907. ferent from all the exposition bills which have been introduced for the aid of expositions, and some of its features have commended it warmly to the members of Congress.
THE FEATURE.

The feature of the Jamestown bill, which helps to make the measure popular with the members of Congress, is the

following: "
"Section 11. That after the appropria-tion herein provided for becomes avail-able to the Jamestown Exposition Comable to the Jamestown Exposition Company, the said Jamestown Exposition Company shall, when requested so to do by the Secretary of the Treasury, convey to the United States a tract or parcel of land, to contain three acres, situated in the county of Norfolk, in the State of Virginia, near Hampton Roads, and to be a portion of a tract of land owned by Virginia, near Hampton Roads, and to be a portion of a tract of land owned by the said company, and whereon saids, exposition is to be held. The Secretary of the Treasury, in conjunction with the Secretary of the Navy, out of an appropriation, to be subsequently made, shall cause to be erected upon the said three acres of land a fit, suitable and permanent building, at a cost not exceeding five hundred thousand dollars, to be used for the exhibits made by this government during said exposition, and after said exposition shall have been closed ter said exposition shall have been closed it shall be used as a naval college, or for such other purpose, in the proper train-ing of reserves for the army or navy of the United States, as Congress may hereafter determine.

Section 12 That the national commisston hereby created, out of any money appropriated to aid in carrying forward the said exposition, shall expend such sum or sums of money, not exceeding in the aggregate (fity thousand dollars, as in its judgment may be necessary and proper to erect upon that portion of Jamestown Island whereon the first settlement was located and now owned by the Association for the Preservation of Virginia Antiquities (a corporation created and existing under the laws of the State of Virginia), with the consent of the said association, such monument or other permanent structure as the said commission may determine, to commemorate the said first settlement: Provided, however, that no money shall be expended for this purpose on Jamestown in its judgment may be necessary nowever, that no money shall be ex-pended for this purpose on Jamestown Island except and until that portion thereof whereon such monument or other permanent structure is proposed to be lo-cated shall be conveyed to the United States."

GETS SOMETHING. There has never been an exposition held in this country under the auspices of the government out of which the government got anything at the close of the show. The feature which proposes that the government shall have the building in which it will have its exhibit, and at the end of the exposition turn the structure into a naval school, tends to make friends for the bill, and will un-

THEY ACTUALLY

DO THE WORK.

Food Eaten is Worthless Unless Digested-Some Stomachs Must Have Help. ed—Some Stomachs Must Have Help.
Food taken into the stomach, which,
from the nature of the food or the condition of the stomach, is not digested,
is worse than no food at all. This is a
true statement as far as it goes, and a
great many dyspeptics go only this far
with their reasoning. They argue with
themselves that because their stomachs do not do the work given them, they must be starved. It would be just as sensible for a business man to cut down must be starved. It would be just as ensible for a business main to cut down his business to his own capacity as it is for a man to starve himself to relieve his stomach. The sensible business man employs help, and goes forward with his business. Likewise tha sensible dyspeptic will employ help for his stomach and give his body proper nourishment. Stuart's Dyspepsia Tablets actually do the work assigned to them. They relieve weak and overburdened stomachs of a great portion of digestive action. Their component parts are identical with those of the digestive fluids and secretions of the stomach and they simply take up the grind and carry on the work just the same as a good, strong, healthy stomach would do it.

On this account Stuart's Dyspepsia Tablets are perfectly natural in their ac-

och would do it.

On this account Stuart's Dyspepsia Tablets are perfectly natural in their action, and effects. They do not cause any unnatural or violent disturbance in the stomach or bowels. They the mestives digest the food and supply the system with all the nourishment contained in what is eaten and carry out nature's plans for the sustenance and maintenance of the body.

How much more sensible is this method than that employed by many sufferers from weak stomachs. By this means the body and brain get all the good, nutritious food they need and the man is preperly nourished and equipped to carry on his work and perform his duties. He could not possibly be in proper working condition by starving himself or employing some new fangled, insufficient food that does not contain enough nutriment for a year-old baby. A strong mandoing strong work, must be properly fed and this applies to the brain as well as the body.

Stuart's Dyspepsia Tablets, by reliev.

and this applies to the body. Stuart's Dyspepsia Tablets, by relieving the stomach of its work, enable it to recuperate and regain its normal health and strength. Nature repairs the worn and wasted lissues just as she heals and links the bone of a broken limb, which is of course not used during the process of repair.

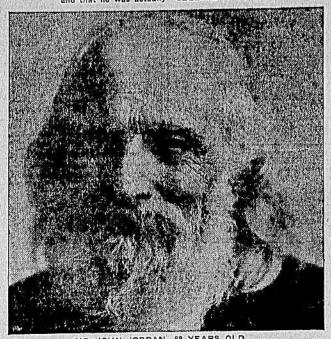

of repairs of course not used until the pro-of repair.
Stuart's Dyspepsia Tablets are for sale by all druggists at 60 centra u box and they are the one article that the drug-gist does not try to sell something in the place of that's "just as good." Ther unqualified merit and success and the universal demand for them has placed them within the reach of every case.

RHEUMATISM...CURED.

Never a Failure—and Not Single Cases, but Hundreds on Hundreds— THOUSANDS-Cured by the Famous Tonic

Jamestown Exposition Company PAINE'S CELERY COMPOUND

Twenty-eight years he suffered—not knowing the cure was close at hand, and that he was actually SELLING IT TO OTHERS.

MR. JOHN JORDAN, 88 YEARS OLD. I was twenty years ago. It more than I ever expected." "I am as active again as

HIS RHEUMATISM AND HEART TROUBLE CURED.

doors in all kinds of weather.

"From the time I was sixty years old I was troubled with rheumatism, and at first kept it down pretty well—the pain of it—by rubbing with liniment. But this since proved to be useless, as every winter my rheumatism came on worse than ever, and I suffered more or less all the year round.

"We had sold Paine's Celery Compound in our store for some time, but somehow I had never tried it for my rheumatism. A customer told my son that Paine's Celery Compound had cured her rheumathem, I took her advice and tried it my-self.

They Were Racked-Crippled-Agonized-Despairing of Cure.

But They ARE Cured.

Rheumatism is positively cured by Paine's Celery Compound. And the people who are most astonished at the cures are the patients themselves. For it is a pathetic truth the rheumatic sufferer—always trying for a cure—at last, after many failures, loses hope of cure and faith in medicine.

"I was then going around with two cames and (being 88 years old) having a very hard time of it."

"Your remedy took the rheumatism out and I will say that I consider it a complete cure—more than I ever expected any medicine to do for me.

"I am as active as I was twenty years ago. I also had had heart symptoms, but since I began taking your medicine my heart is regular and gives me no trouble.
"I take a little dose of Paine's Celery Compound every morning and it keeps me in good condition. Very truly, "JOHN JORDAN, "95 West 29th St. New York City."

In the thousands of letters in our office, this truth strikes one immediately— nearly every letter that certifies to a cure of RHEUMATISM says that the person "did not really expect to be cured," and "took Paine's Celery Compound only as

a last resort."

Mr. Jordan's letter is simply an example. Note that he, too, "did not expect any medicine to do him any good." And here is another letter, from an old lady who had "concluded she could not be

by Paine's Celery Compound.

"I am nearly \$9 years of age and I had been troubled with Rheumatism for many years. I tried almost overything to case my pain, until I concluded I could not be cured.

"My daughter induced me to try Paine's Celery Compound. Then the tree bottle I had great relief. The cur by the testile I am present the could be to the cured of the could be to the cured of the could be to the cured of the pain.

RHEUMATISM—ITS CAUSE.

RHEUMATISM-ITS CAUSE.

RHEUMATISM—ITS CAUSE.

We print these letters, not because it is Mr. Jordan, or Mrs. Aller, but because, it WAS Rheumatism, just as real and lust as painful as the rheumatism that You, perhaps, are suffering today.

Remember—thousands of cases of rheumatism have been cured by Paine's Gelery Compound, precisely as Mrs. Aller and Mr. Jordan were cured—and we have the letters to show for thom.

Rheumatism, bumbage, Gout and many other diseases are caused by the blood being loaded with acids and other impurities. It is not the fault of the blood. The organs that should make and purify the blood are not doing their work right. But that is not their fault either. They cannot work unless the NERVES give them strength to work.

The Nerve Force that is absolutely necessary to keep all the organs working properly is too weak. This chain or health or sickness is not mere argument of theory.

It is recognized by science—in no other

theory.

It is recognized by science—in no other way can you become slok—in no other way can you become well. In your body—for slokness or health—

THE NERVE SYSTEM IS KING.

The real cause of your rheumatism is in weak nerves. And there can be no real cause of rheumatism unless you cure the cal cause. weak nerves. And there can be no the real cause.
Those and our thousands of other letters, written by old and young, are proof of this. Palne's Celery Compound feeds and rebuilds the worn-out nerves.
It makes no difference how the weak nerves cause troible—whether in the blood, or the stomach, the bowels, or the liver, or the brain—Palne's Celery Compound gives the nerves NEW VITAL FORCE to make the system do its work—to make you Well in every part of your body—it cures the REAL Cause.

AT RANDOM-A FEW OTHER RHEU4 MATISM CURES FROM OUR LETTERS:

"Don't waste time on SYMP-TOMS. Cure the CAUSE - the NERVES."

-Professor Edward E. Phelps, M. D., Ill. D., of Dartmouth University. Famous Discoverer of Paine's Celery Compound.

doubtedly be the means of getting it

doubtedly be the means of getting it yote...
The proposition to creet a monument on Jamestown Island is also popular. But it is a remarkable fact that some members of Congress have asked recently where Jamestown is located and for what it is celebrated. A member asked a Virginian that question recently, and the Virginian repiled that it was a place in America where they were preaching the gospel in their own clurch, and trying criminals by jury, before the Piligrims landed at Plymouth Rock.

There is in the minds of the managers of the exposition company a scheme to bring the school children of this country a clear idea of the importance of the exabilishment of the first English settlement in the New World. It is proposed to offer a prize of a medal, or a sum in gold, for the best essay on the settlement of Jamestown, written by a pupil of the public schools. It is proposed to offer forty-five of these prizes, one in every State in the Union. The essays will be submitted to the teachers and trustees and State superintendent in each State, tha final award to be made by the latter official. It has been suggested that the teacher in charge of each school send to the local trustees to send the best they receive to the county superintendent, and the county superintendent essay submitted, the trustees to send the best they receive to the county superintendent, and the county superintendent to send the best to the State superintendent. The committee which has been discussing the scheme has assumed that the school system of each State is similar to that of Virginia, which is as indicated above. The Eccision of the head of the schools of a State would stand as final, and the medal to be awarded would be given in accordance with his dictum.

It has been suggested that the exposition company also offer a medal for the best essay written by any public school pupil in the United States on Jamestown of some other kindred topic. To reach a decision in such a contest it would only be necessary to select the lest essay of the forty-five winners of State prizes.

State prizes. The managers of the exposition have not decided to inaugurate such a contest as the foregoing, but the subject is under consideration, and it is more than likely that it will meet with favor.

MURDER MYSTERY IS CLEARED BY CONFESSION

(Special to The Times-Dispatch.) WINSTON-SALEM, N. C., Feb. 23.-The mystery surrounding the murder of Sidney Disher, a young white man in Salem Saturday night, was cleared up today by the arrest of Crawford Boyd (colday by the arrest of Crawford Boyd (colored), aged fifty-five, who contessed that he shot Disher. Boyd was arrested to-day at the home of his daughter, near Kernersville. In ... evidence before the coroner's jury this afternoon. Boyd stated that Disher was trying to throw him over an embankment, while Milton Brewer, one of Disher's friends, was making at him with a knife, when he fired. Brewer, Ralph Sanders and Thos. Monday, who were with Disher when he was shot, and who were arrested for investigation by the coroner's jury, were released this afternoon after Boyd's confossion. ession The latter may be tried at this term of

Bust of Taylor.

On a pedestal in one of the windows of the Senate Appropriations Committee from Mr. Daniel has a marble bust of President Zachary Taylor, Mrs. Dandrich, a daughter of 'Old Rough and accordingly is one of Senator Daniel's accordingly is one of Senator Daniel's constituents, she being a sister of General Dick Taylor, A grandson of President Taylor, Mr. John Taylor Wood, now resides at Halifay, Nova Scotia.

The marble bust, which has the appearance of being an excellent likeness, has ance of being an excellent likeness, has been in the Taylor family eyer since that been in the Taylor family eyer since that
